[•] These indicators use three-year estimates from the American Community Survey (ACS) for certain years. All data under the 2000 heading comes from the 2000 Census. Generally, data under 2007 are from the 2005-2007 ACS, data under 2010 are from the 2010-2013 ACS. Under the 2010 heading, four indicators—homeownership rate, severe crowding rate, households with children, and population age 65 and older—come from the 2010 Census. See the ACS section in the Methods chapter for more information. Percentage of all rental housing units. Percentage of all rental housing units. Represents 2012 conditions. *Represents 2014 conditions. *Community district shares are five-year estimates over 2009-2013. *Ranked out of 12 community districts where this property type was the predominant type sold in 2000-2014.
