

Advancing research and debate  
on housing, neighborhoods,  
and urban policy

School of Law  
Wagner School of Public Service

## Three ways to support the NYU Furman Center

The NYU Furman Center, a joint center of the NYU School of Law and Wagner Graduate School of Public Service, advances research and debate on housing, neighborhoods, and urban policy. Our research, publications, events, and public data all serve to expand knowledge, deepen understanding, and promote discussion of the critically important legal and public policy issues surrounding land use, real estate, housing, and urban affairs in New York City and the United States.

## Support the NYU Furman Center's research and policy work

Your donation in any amount will help fund the critical work of our team of talented researchers and students. During their time at the Furman Center, our Graduate Student Research Assistants gain expertise on a wide range of topics in the fields of housing, real estate, and urban policy. Help us support the next generation of urban policy leaders with an unrestricted donation. Visit our website to learn more and make your tax-deductible contribution today.

## Sponsor the State of New York City's Housing and Neighborhoods

The State of New York City's Housing and Neighborhoods annual publication is the premier compilation of data and analysis about New York City's housing, land use, demographics, and quality of life indicators for each borough and the city's 59 community districts. Sponsorship levels range from \$2,500 to \$50,000. Sponsors are recognized in the digital report, as well as on event programs, signage, and invitations.

## Establish a Fellowship

A Furman Center Research Fellow is appointed for a two-year term, following the successful completion of a post-graduate degree. We are grateful for the generosity of the sponsors of these \$250,000 fellowships, who include New York University School of Law alumni and leaders in the field of real estate and urban development.

If you are interested in committing to sponsorship of the *State of New York City's Housing and Neighborhoods* report, establishing a research fellowship, or have other questions, please contact:
